

OAK & IRON AFTERCARE

SANIDERM METHOD:

Our artists will provide you with a Saniderm bandage. Saniderm is a sterile, breathable, waterproof, germ proof barrier to protect your new tattoo. Saniderm will protect your tattoo from contamination and will also protect your clothes and sheets from excess ink, blood, and fluids that are normal byproducts of healing a tattoo. You can shower normally while healing, but please abstain from swimming, hot tubs, saunas, or submerging your tattoo in bodies of water.

- 1. LEAVE SANIDERM ON FOR 3-5 DAYS**
- 2. WHEN REMOVING, RUN UNDER WARM WATER AND PEEL AWAY**
- 3. WASH TATTOO AFTER REMOVAL. GENTLY PAT DRY.**
- 4. APPLY FRAGRANCE FREE LOTION/AFTERCARE 2-3 TIMES A DAY UNTIL HEALED.**
- 5. DO NOT ITCH, PICK OR SCRATCH YOUR NEW TATTOO.**
- 6. AVOID DIRECT SUN EXPOSURE FOR AT LEAST TWO WEEKS.**
- 7. SHOWER, DO NOT SOAK.**

** If the Saniderm begins to leak, peel, or come off, remove immediately.
*** If the edges of the bandage become red or swollen, remove immediately.

LOTION METHOD:

- 1. KEEP YOUR DRESS ON FOR 3-4 HOURS**
- 2. DO NOT COVER AGAIN**
- 3. WASH IN WARM WATER USING FRAGRANCE FREE SOAP, TWICE A DAY, PAT DRY**
- 4. APPLY FRAGRANCE FREE LOTION/AFTERCARE 2-3 TIMES A DAY**
- 5. SHOWER, DO NOT SOAK.**
- 6. AVOID SWIMMING & SUNBATHING UNTIL COMPLETELY HEALED**
- 7. A SCAB WILL FORM, DO NOT SCRATCH OR PICK IT. ALLOW IT TO HEAL, WHICH MAY TAKE 10 DAYS.**

** Do not use vaseline or petroleum based ointments on a fresh tattoo
*** Do not expose your tattoo to direct sunlight, tanning beds, or pets

**IF YOU ARE HAVING ANY REACTIONS OR HAVE ANY QUESTIONS ABOUT YOUR HEALING
TATTOO, PLEASE CONTACT THE SHOP OR YOUR ARTIST!**
